Winnipeg, Manitoba
R3C 4E3

(204) 945-6578

The Annual Production Statistics Report is printed in a field/pool code format. The Petroleum Branch has adopted these designations to allow for more meaningful grouping of production data and to facilitate easier technical study of all reservoirs in the Province. Users familiar with the pre-1983 format can use the table and map on the following pages to cross-reference the previous field designation with the field/pool code format.

In response to industry requests, effective with the October, 1985 monthly edition, all production from confidential wells is shown as a total number only. Individual confidential wells will no longer be shown.

Should you have any questions or comments about this publication please contact Brad Thiessen at (204) 945-6571.

A Pool Location Map, at a scale of 1:125 000, showing all producing pools and codes is available from the Petroleum Branch at a cost of $10.00 per copy. Orders can be placed by contacting the Branch at (204) 945-8102.
